We always walk home together and talk about our homework. When I am doing my homework and I don't understand a question, I often call Hanna for help and we do it together. After we have finished our homework we always chat on the computer before we go to bed. We never go to sleep without speaking.

She often sleeps over on Saturdays, we watch TV or a film together and we usually eat popcorn or sometimes we have a pizza.

We both like to wear casual clothes, jeans and t-shirts, and sometimes we swap clothes. If I want to wear some jeans, I often borrow a t-shirt from Hanna because she has some cool clothes. She never complains and she often borrows my caps.

Hanna has a little brother, Charlie who is nine years old. Sometime he can be annoying and he takes her things without asking her. I don't have any brothers or sisters so Hanna is like my sister. Our parents often say we are like twins as we are so alike.

The story of oil

Hello, Im Oil .I want to tell you about myself. My scientific name is Petroleum. It comes from two Latin

words –Petra and oleum – which mean oil from rocks. Because thats where I live. Millions of years ago, plants and animals died and were buried .As time went on, they were pushed deeper and deeper and deeper leading to a tremendous increase in pressure. From this I was born. Im not found everywhere. Earlier people could find me only if I visited the surface .Now, they spend billions of rupees and a lot of effort to dig deep into the earth, often also under the ocean, to bring me out. Then they take

me to the refinery .There they clean me up and take me out in various forms such as petrol, diesel, kerosene, cooking gas, plastics, paints etc.You must be wondering why Im given so much

importance .Thats because without me cars motorcycles, buses, trains, planes, machinery would all come to a stop

.Your mother may have to cook using wood .The world would become a much tougher and darker place to live in. The

sad part is, even though so important, people keep on wasting me .They go for long trips in cars and scooters which are always not necessary .They speed around needlessly. They leave lights and fans on as if it were limitless.Ah! This makes me very sad .Because there is only so much of me .Very soon I wont be anymore. I want to be as useful as I can; before I go away For this I need your help. Please keep your eyes and ears open and speak out if you see me being wasted.
